

DOT Citywide Mobility Survey Questionnaire

May 31, 2017

Survey Overview

Methodology

15-20 minute survey conducted among New York City Residents:

- N=1,800 New York City General Population conducted over the phone
- N=1,800 Oversample of New York City Residents conducted online

Objectives:

NYC DOT would like to conduct research to accomplish the following:

- Understand the factors and experiences that drive transportation choices for New York City residents.
- Assess views on the current state of transportation within the City.
- Measure reactions and perceptions to relevant trends and topics in New York City transportation.
- Ultimately, establish an ongoing tracking program regarding transportation preferences and usage patterns.

Note: This survey will be offered in multiple languages. English, Spanish, and Chinese will be offered immediately, without other languages available via call-back.

The telephone portion of the survey will reach a wide range of New York City Residents including those who are disabled.

This draft will go through a pre-testing procedure, where 15-20 participants will take the survey in order to gauge survey length and gain an in-depth understanding of clarity and comprehension of questions.

The answer choices "other" and "don't know" will be voluntary for phone surveys. The answer choice "refused" will not be offered in the online survey.

Survey Introduction

Hello, my name is _____ and I am doing a public opinion survey for PSB Research, on behalf of the New York City Department of Transportation. We'd like to get your opinion on a few issues people have been talking about lately. It will only take a few minutes. Your responses will be kept strictly confidential, no personally identifiable information will be made publicly available. To thank you for your participation, you will be entered into a lottery to win one of five free iPads.

Trip Tracking & Modal Choice

Calling Schedule	Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
Day asked about	Saturday	Sunday	Monday	Tuesday	Wednesday	Thursday	Friday

New introduction:

Now we're going to ask you a series of questions about each of the individual one-way trips you made yesterday. A one-way trip is any time you leave one location to go to another.

For example: If you went to work, walked around the corner to get lunch, and went home, your first trip of the day would be to work, your second trip would be from work to lunch, your third trip would be from lunch back to work, and your fourth trip would be from work back to your home.

PROBE 1: Does that make sense?

- 1) Yes
- 2) No

[If does not make sense] Loop back to example.

[If makes sense] Great, let's get started!

34. Now, thinking about yesterday, did you take any trips?
